

Workshop on Frontiers in Silicon Photonics

Home	Invited Presentations	Exhibits & Sponsors	Advance Program	Conference Venue	Registration
----------------------	---------------------------------------	---	---------------------------------	----------------------------------	------------------------------

Scope:

As Silicon Photonics moves forward, more practical and sustainability issues are emergent. This workshop is to provide a forum for international experts and Chinese scientists in this area to present and discuss their forward looking views and suggestions. The speakers for the Workshop are by invitation only, but the workshop attendance is open.

Conference Advisors:

[Bingkun Zhou, Tsinghua University, China](#)
[Alan E. Willner, University of Southern California, USA](#)
[Qiming Wang, Institute of Semiconductor, CAS, China](#)

Conference Co-Chairs:

[Zhiping \(James\) Zhou, Peking University, China](#)
[Jurgen Michel, Massachusetts Institute of Technology, USA](#)

Invited Presentations:

Organization:

Organizer: [State Key Laboratory of Advanced Optical Communications System and Networks, Peking University](#)
Co-sponsors: [The Institution of Engineering and Technology \(The IET\)](#)
[IEEE Photonics Society](#)
Supporters: [Peking University](#)
[National Natural Science Foundation of China](#)
[The Chinese Optical Society](#)
