ANIMMA: International Conference on Advancements in Nuclear Instrumentation Measurement Methods and their Applications

June 19 - 23, 2017

Scope

Contact & Venue

Scope

ANIMMA 2017 is the fifth of a series of conferences devoted to endorsing and promoting scientific and technical activities based on nuclear instrumentation and measurements. The main objective of ANIMMA conference is to unite the various scientific communities not only involved in nuclear instrumentation and measurements, but also in nuclear medicine and radiation. The conference is all about getting scientists, engineers and the industry to meet, exchange cultures and identify new scientific and technical prospects to help overcome both current and future unresolved issues.

More information

All information can be found on the conference website: www.animma.com

Topics

The ANIMMA 2017 conference topics include nuclear instrumentation and measurement methods for:

- Fundamental physics
- Fusion diagnostics and technology
- Nuclear power reactors
- Research reactors
- Nuclear fuel cycle
- Decommissioning, dismantling and remote handling
- Safeguards, homeland security
- Severe accident monitoring
- Environmental and medical sciences
- Education, training and outreach
