

International Conference on Electronics, Communication and Artificial Intelligent Technology

ICECA 2019

IEEE International conference on Electronics, Communication and Artificial Intelligent Technology is being organized on 24,25, September 2019 by RVS Technical Campus. ICECA 2019 will provide an international forum for scientists from all over the world to share ideas and achievements in the practice of all areas of aerospace technologies. Presentations should highlight inventive systems that combines theoretical research and applications in Electronics, Communication, Informatics and Aerospace technologies.

About

The RVS Technical campus intends to be the preeminent research and teaching institution linking our institutions to the nation and the world by providing quality, career focused education and specializations.

Vision

To be a world class Institution for Engineering and Managerial Education by imparting quality education to students who meet global standards and formulate students academically superior, socially committed, ethically sound and culturally rich citizens.

Quality Policy

We shall endeavor to continually enhance customer satisfaction by improving the quality of teaching and supporting processes to develop our students into mature engineers and managers.
