语音和语言技术中心2006年论文列表

1. Jian Liu, Thomas Fang Zheng and Wenhu Wu "Pitch Mean Based Frequency Warping," in Qiang Huo, Bin Ma, Eng-Siong Chng, Haizhou Li Eds. "Chinese Spoken Language Processing," Springer-Verlag Berlin Herdelberg, Germany, 2006, pp.87-94 (Proceedings of 5th International Symposium on Chinese Spoken Language Processing (ISCSLP 2006), Singapore, December 13-16, 2006) (SCI)

2. LIU Jian, ZHENG Fang, DENG Jing, WU Wen-hu, "Combined Magnitude Difference Function Based Pitch Tracking Algorithm," ACTA Electronica Sinica, 34(10): 1925~1928, Oct. 2006

3. LIU Jian，ZHENG Fang，WU Wenhu, "Real-time pitch tracking based on sum of magnitude difference square function," J. Tsinghua Univ (Sci & Tech), 46(1): 74-77, Jan. 2006 (in Chinese)

4. Linquan Liu, Thomas Fang Zheng, and Wenhu Wu, "English Alphabet Recognition Based on Chinese Acoustic Modeling," in Qiang Huo, Bin Ma, Eng-Siong Chng, Haizhou Li Eds. "Chinese Spoken Language Processing," Chinese and Oriental Languages Information Processing Society (COLIPS), Singapore, 2006, pp. 463-472 (Companion Volume of proceedings of 5th International Symposium on Chinese Spoken Language 2006 (ISCSLP 2006), Singapore, December 13-16, 2006)

5. Linquan Liu, Thomas Fang Zheng, and Wenhu Wu, "State-Dependent Phoneme-Based Model Merging for Dialectal Chinese Speech Recognition," in Qiang Huo, Bin Ma, Eng-Siong Chng, Haizhou Li Eds. "Chinese Spoken Language Processing," Springer-Verlag Berlin Herdelberg, Germany, 2006, pp. 282-293 (Proceedings of 5th International Symposium on Chinese Spoken Language Processing (ISCSLP 2006), Singapore, December 13-16, 2006) (SCI)

6. Linquan Liu, Thomas Fang Zheng and Wenhu Wu, "Automatic Initial/Final Generation for Dialectal Chinese Speech Recognition," INTERSPEECH-ICSLP, pp. 141-144, September 17-21, Pittsburgh, Pennsylvania

7. Jing Li, Thomas Fang Zheng, William Byrne and Dan Jurafsky, "A dialectal Chinese speech recognition framework," J. of Computer Science and Technology, 21(1): 106-115, Jan. 2006

8. Qi Liang, Thomas Fang Zheng, Mingxing Xu, Wenhu Wu. "Language Model Adaptation Based on the Classification of a trigram's Language Style Feature," J. Chinese Information Processing, 20(4): 68-74, Jul. 2006 (in Chinese)

9. Qi Liang, Thomas Fang Zheng, Mingxing Xu, and Wenhu Wu, "Language model adaptation based on the classification of a trigram's language style feature," International Conference on Natural Language Processing and Knowledge Engineering (IEEE NLP-KE，05), pp. 91-96, Oct. 30-Nov. 1, Wuhan, China

10. Zhibo Liu, Thomas Fang Zheng, Xiaojun Wu, and Mingxing Xu, "Towards A New Implementation Approach for Rapid Development of Text-based Dialog Systems," 11th Australasian International Conference on Speech Science and Technology 2006 (SST，2006), pp. 48-51, Dec. 6-8, 2006, University of Auckland, Auckland, New Zealand

11. Zhibo Liu, Michael Brasser, Thomas Fang Zheng, and Mingxing Xu, "A new implementation approach of grammar generation tool for text-based SDS," Computer Science, 33(11): 205~209, Nov. 2006 (in Chinese)

12. SUN Hui，ZHENG Fang，WU Wenhu, "Confidence scoring using context dependent features for word verification," J. Tsinghua Univ (Sci & Tech), 46(1): 94-97, Jan. 2006 (in Chinese)

13. Thomas Fang Zheng, Zhanjiang Song, Lihong Zhang, Michael Brasser, Wei Wu, Jing Deng "CCC Speaker Recognition Evaluation 2006: Overview, Methods, Data, Results and Perspective," in Qiang Huo, Bin Ma, Eng-Siong Chng, Haizhou Li Eds. "Chinese Spoken Language Processing," Springer-Verlag Berlin Herdelberg, Germany, 2006, pp. 485-493 (Proceedings of 5th International Symposium on Chinese Spoken Language Processing (ISCSLP 2006), Singapore, December 13-16, 2006) (SCI)

14. Jing Deng, Thomas Fang Zheng and Wenhu Wu "UBM based Speaker Segmentation and Clustering for 2-Speaker Detection," in Qiang Huo, Bin Ma, Eng-Siong Chng, Haizhou Li Eds. "Chinese Spoken Language Processing," Springer-Verlag Berlin Herdelberg, Germany, 2006, pp. 116-125 (Proceedings of 5th International Symposium on Chinese Spoken Language Processing (ISCSLP 2006), Singapore, December 13-16, 2006) (SCI)

15. Zhenyu Xiong, Thomas Fang Zheng, Zhanjiang Song, Frank Soong, Wenhu Wu, "A tree-based kernel selection approach to efficient Gaussian mixture model - universal background model based speaker identification," Speech Communication, 48(10): 1273-1282, Oct. 2006 (SCI)

16. Wei Wu, Thomas Fang Zheng, Ming-Xing Xu, and Huan-Jun Bao, "Study on Speaker Verification on Emotional Speech," INTERSPEECH-ICSLP, pp. 2102-2105, September 17-21, Pittsburgh, Pennsylvania

17. Deng Jing, Zheng Fang, Liu Jian, Wu Wenhu, "Using subband Mel-spectrum centroid and Gassian mixture correlation for robust speaker identification," ACTA ACUSTICA, 31(5): 471-475, Sept. 2006 (in Chinese)

18. Xiong Zhenyu, Zheng Fang, Song Zhanjiang,Wu Wenhu, "Tree-structural universal background model based efficient speaker identification," J. Tsinghua Univ (Sci & Tech), 46(7): 1305-1308, Jul. 2006 (in Chinese)

19. Wei Wu, Thomas Fang Zheng, and Mingxing Xu, "Cohort-based speaker model synthesis for channel robust speaker recognition," International Conference on Acoustics, Speech and Signal Processing (ICASSP'06), pp. I-893~896, May 14-19, 2006, Toulouse, France
