Welcome to Wuhan!

Artificial intelligence and education are becoming increasingly interesting to both the academic researchers and medical practitioners. It is essential to explore medical artificial intelligence and education from the theoretical viewpoint. The 2009 International Conference on Artificial Intelligence and Education (ICAIE 2009) provides two day's focus on the science and technology that are the basis for the artificial intelligence and education. The theme of the plenary session is "e-Learning platforms and tools, artificial intelligence and open learning and new generations of educational technologies" featuring invited speakers who will further explore this topic that is so significant for artificial intelligence and education. Concurrent sessions and a poster session will cover a wide range of topics and issues, including both contributed papers and special sessions developed on specific themes, all with a central focus on artificial intelligence and education.

ICAIE 2008 于2008年10月17-18日在武汉召开，会议召开后两个月，所有由World Academic Press出版的会议论文已经全部被ISTP收录。2009年为了扩大影响，会议名称更改为

2009 International Conference on Artificial Intelligence and Education，所有由World Academic Press出版论文将再次确保被ISTP 收录，同时偏技术类的文章将由IEEE CS出版并将被EI收录。
