

Table with multiple columns containing alphanumeric characters, symbols, and numbers. The content is highly repetitive and appears to be a data dump or a complex code structure. Key elements include symbols like \$, %, @, #, and various alphanumeric strings.

Complex page with multiple columns of text, including code snippets, tables, and various symbols. The content is dense and appears to be a technical or programming document.

Complex document containing multiple tables, code snippets, and text blocks. The content is highly technical and appears to be a mix of programming code and data tables. It includes various symbols, numbers, and text in a structured layout.

Complex document containing multiple tables and code blocks. The tables include financial data with columns for 'Date', 'Value', and 'Unit'. The code blocks contain snippets of C++ and JavaScript code, such as 'return n; else { oneBack = 1; twoBack = 0; ... }' and 'function f(n) { if(n < 1 || k < 0 || k > n) return 0; ... }'. The document also features various mathematical expressions and symbols.
