KMIS is part of **IC3K**, the 11th International Joint Conference on Knowledge Discovery, Knowledge Engineering and Knowledge Management. Registration to KMIS allows free access to all other IC3K conferences.

UPCOMING DEADLINES

Regular Paper Submission: **April 29, 2019**

Regular Paper Authors Notification: **June 28, 2019**

Regular Paper Camera Ready and Registration: **July 12, 2019**

Knowledge Management (KM) is a discipline concerned with the analysis and technical support of practices used in an organization to identify, create, represent, distribute and enable the adoption and leveraging of good practices embedded in collaborative settings and, in particular, in organizational processes. Effective knowledge management is an increasingly important source of competitive advantage, and a key to the success of contemporary organizations, bolstering the collective expertise of its employees and partners. Information Sharing (IS) is a term used for a long time in the information technology (IT) lexicon, related to data exchange, communication protocols and technological infrastructures. Although standardization is indeed an essential element for sharing information, IS effectiveness requires going beyond the syntactic nature of IT and delve into the human functions involved in the semantic, pragmatic and social levels of organizational semiotics. The two areas are intertwined as information sharing is the foundation for knowledge management.

DOCTORAL CONSORTIUM

OPEN COMMUNICATIONS

All papers presented at the conference venue will be available at the **SCITEPRESS Digital Library**

Sponsored by:

INSTICC is Member of:

Logistics Partner:

Proceedings will be submitted for indexing by:

357 papers currently indexed by SCOPUS (and others) since 2009 until 2016
