The purpose of the 15th International Conference on Web Information Systems and Technologies (WEBIST) is to bring together researchers, engineers and practitioners interested in the technological advances and business applications of web-based information systems. The conference has five main tracks, covering different aspects of Web Information Systems, namely Internet Technology, Web Interfaces and Applications, Society, e-Communities, e-Business, Web Intelligence and Mobile Information Systems. WEBIST focuses on real world applications; therefore authors should highlight the benefits of Web Information Systems and Technologies for industry and services, in addition to academic applications. Ideas on how to solve business problems using web-based information systems and technologies, will be discussed at the conference.

CONFERENCE AREAS

- 1 . Internet Technology
- 2 . Mobile and NLP Information Systems
- 3 . Service Based Information Systems, Platforms and Eco-Systems
- 4 . Web Intelligence
- 5 . Web Interfaces
