The conference is co-organized by:

Theme: Cybercrime Research, Policy and Practice: the Collaboration Imperative

ICCCF 2017 is technically co-sponsored by IEEE Australian Capital Territory Section and Queensland Section C Chapter.

Following the resounding success of our 4th international conference held in Vancouver, Canada, in June 2016, with presentations from 16 different countries, we now announce plans for next year.

In 2017, the 5th annual ICCCF is moving from North America to Australia, and will be held on the Gold Coast, Queensland. Australia has been one of the key pioneers in cybercrime research, policy and practice. It is expected that the Australia Section of the IEEE will again be the technical programme sponsor.
