Challenge of Practice and Theory in Web-based Information Services

News

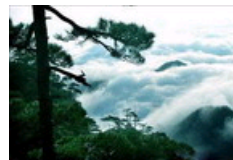

Information Systems Development (ISD) progresses rapidly, continually creating new challenges for the professionals involved. New concepts, approaches and techniques of systems development emerge constantly in this field. Progress in ISD comes from research as well as from practice. The aim of the Conference is to provide an international forum for the exchange of ideas and experiences between academia and industry, and to stimulate exploration of new solutions.

The 18th International Conference on Information Systems Development (ISD2009) will be hosted by Jiangxi University of Finance and Economics, Nanchang in China. The theme of the conference is "Challenge of Practice and Theory in Web-based Information Services". The conference features a number of tracks covering a wide spectrum of topics in the area of Information Systems Development. They will include (but not limited to):

- Legal and Administrative Aspects of Information Systems Development
- Enterprise Systems - A Challenge for Future Research and Improved Practice
- Model-Driven Engineering in ISD
- IS/IT Project Management
- Information Systems for Service Marketing
- Development of Information Systems for Creativity and Innovation
- Human-Computer Interaction in ISD
- Agile and High-Speed Systems Development
- Managing of IS Development
- Innovation in Information Systems Development
- Public Information Systems Development
- Information Systems Engineering & Management
- Business Systems Analysis & Design
- Data and Information Systems Model
- Information Systems Development in Education and Government
- Service Oriented Modeling and Semantics Web Technologies Web-based
- Information System Development Methodology

Key Dates:

- Paper submission: **May 1, 2009**
- Notification of Acceptance: **June 15, 2009**
- Early registration: **July 15, 2009**
- Camera-ready Paper: **August 1, 2009**
- Conference: **September 16-19, 2009**
