International Symposium on Digital Forensic and Security

We are pleased to announce that The 5th International Symposium on Digital Forensic and Security (ISDFS 2017) will be held in Tirgu Mures, Mures, Romania, on **April 26-28, 2017**. The conference is technically sponsored by **IEEE Romania Section**. The conference proceedings will be submitted for publication in the **IEEE Xplore Digital Library**.

ISDFS provides a platform for researchers and experts in academia, industry and government to exchange ideas and recent developments in digital forensics and security. After the several successful events, the fifth ISDFS conference will continue to

promote and disseminate knowledge concerning several topics and technologies related to Digital Forensics and Security.

The symposium venue will be held by the “Petru Maior” University of Tîrgu Mures. Special sessions, workshops, tutorials, keynotes, panel discussions, poster and oral presentations will be included in the symposium program.

Topics within the scope of the symposium include, but are not limited to, the following areas:

- Digital Forensics
- Data Privacy
- Cryptography
- Information Security
