

JOIN US IN 2019 AT THE MOST-ATTEND EVENT FOR GREEN CHEMISTS AND ENGINEERS.

The 23rd Annual Green Chemistry & Engineering Conference and 9th International Conference on Green and Sustainable Chemistry will be held together from the June 11-13, 2019 in Reston, Virginia.

The Green Chemistry & Engineering (GC&E) Conference, hosted by the American Chemical Society's Green Chemistry Institute, has been a meeting ground for advancing sustainable science and solutions since 1997.

The International Conference on Green and Sustainable Chemistry (GSC) brings the global green chemistry community together every other year to share research and education initiatives. The last GSC was held in Melbourne, Australia in 2017.

The ACS Green Chemistry Institute is pleased to bring these two events together for three days of oral and poster sessions, keynotes, social events, and workshops in the Washington DC metro region. Join us at this unique event!

**"Premier forum of both academic and industrial advances in green chemistry and sustainability."**

— Jane Wissinger, Professor of Chemistry, University of Minnesota
