路艳罗：女，博士，讲师。1997年毕业于哈尔滨工程大学电化学工程专业，2005年于北京化工大学获得工学博士学位。参加过国家863项目和北京市科技新星计划项目。主要研究方向（1）层状超分子结构无机功能材料；（2）新型锂离子二次电池正极材料的结构与性能研究，现已在*Electrochem. Commun.*和*Electrochim. Acta*等国内外学术期刊及学术会议上发表研究论文10余篇，申请国家发明专利2项，其中1项已获授权。

Dr. Lu Yanluo is a lecturer in the College of Science in Beijing University of Chemical Technology. She graduated from Harbin Engineering University in 1997, and was awarded her Ph.D. from Beijing University of Chemical Technology in 2005, after which she joined the staff there. Her main research interests are: (1) layered supramolecular functional inorganic materials and (2) structure and properties of new cathode materials for lithium ion secondary batteries. She has published more than 10 research papers in academic journals such as *Electrochem. Commun.* and *Electrochim. Acta*, and has submitted two patent applications.
