 $\hbox{First Circular and Call for Papers}$ The 8th International Symposium on Gas Cleaning at High Temperatures

The 8th International Symposium on Gas Cleaning at High Temperature (GCHT-8) will be hosted by the Institute of Coal Chemistry, Chinese Academy of Sciences and State Key Laboratory of Coal Conversion, and will be held in Taiyuan, the coal capital city of China, from August 23 to 25, 2010. A technical tour will be arranged to 160 kt/a F-T synthesis demonstration plant in Changzhi on August 25, 2010.

The organizing committee of GCHT-8 cordially invites all colleagues who are active and interested in the fields listed below to contribute to the conference. All the participants who wish to attend the conference and present their papers are invited to complete and return the Reply Form and submit the Abstract to GCHT-8esxicc.ac.cn by January 15, 2010.

You may also know the detailed information of the conference from the website: http://sklcc.sxicc.ac.cn/gcht-8/.
