## Printomorrow - for better future with print

For global environmental protection and harmony with the community, our industrial role is continuously expanding. In accordance with the principle "Printomorrow - for better future with print", we will fulfill our role as responsible members of the community.

**Name :** Japan Federation of Printing Industries (JFPI)

**Established :** June 3, 1985

**Purpose :** 10 printing industry associations formed JFPI to further the sophistication and over all development of the printing industry through the exchange of valuable information and cooperation. The federation was established to contribute to the development of Japanese industries, the improvement of national living conditions, and the advancement of culture.

**Activities :** Promoting technological sophistication in the printing industry.  
Promoting development of the information industry.  
Promoting stable supply and demand for products, materials, and equipment.  
Promoting development of human and technological resources.  
Promoting environmental protection and improved safety and sanitation practices.  
Promoting awareness and knowledge of the printing industry.
