1) Section-3, Technical Dept. Offset Ink Div, Toyo Ink Mfg. Co., Ltd.

Abstract

Fountain solution is the most important elemental material for the lithographic printing. Recently isopropyl alcohol substituted concentrates are widely used for environmental regulations. In printing fields, FM screen techniques are getting attention as CTP technologies evolve. In this review, followings are described i) history of fountain solution ii) suitable fountain solution for FM screen iii) future of fountain solution.
