

The World's largest Leather Research Institute, was founded on 24 April, 1948. CLRI made an initiative with foresight to link technology system with both academy and industry.

CLRI, today, is a central hub in Indian leather sector with direct roles in education, research, training, testing, designing, forecasting, planning, social empowerment and leading in science and technology relating to leather.

State-of-art facilities in CLRI support, innovation in leather processing, creative designing of leather products viz. leather garment, leather goods, footwear and development of novel environmental technologies for leather sector.
