## Eduardo Miranda

PROFESSOR OF CIVIL AND ENVIRONMENTAL ENGINEERING

-  PRINT PROFILE
-  EMAIL PROFILE
-  VIEW STANFORD-ONLY PROFILE

## Bio

Miranda's research involves development of knowledge and tools to integrate structural engineering with construction and management engineering in order to design projects that perform better, are faster to build and are more economical to design, build and maintain. Other areas of research include performance-based engineering and earthquake engineering

## Academic Appointments

Professor, Civil and Environmental Engineering

## Professional Education

PhD, UC Berkeley (1991)
