水问题论坛系列讲座——2007年第14讲（总第67讲）

发表日期: 2007-10-16 点击次数: 407

题目: Environmental flow study in Australia

主讲人: Dr Chris Gippel

Fellow, School of Anthropology, Geography and Environmental Sciences,
The University of Melbourne, and

Director, Fluvial Systems Pty Ltd

时间: 2007年10月19日上午10: 00

地点: **2321**会议室

Dr. Gippel has over 20 years experience in providing specialist consulting services to the land and water resources management industry, undertaking multi-disciplinary environmental research, and providing specialist expertise in fluvial geomorphology and hydrology. He has published numerous papers on environmental flows in streams, turbidity of streams, large woody debris in streams, and river rehabilitation.
