摘要 运用S-F框架理论,即实体(Substance)、构造(structure)、形态(Form)和机能(Function)构造分析法,系统地研究了企业自适应机理的构成;通过对156个企业内、外环境因素的实证调查分析,验证了其构造的正确性,找出了目前影响企业这种机理形成、发展的主要因素,对企业的经营管理有一定的实际意义。

关键词: 自适应控制 结构 环境效应

Abstract: This paper absorbs and digests a new foreign method of thinking, that is, the S-F Framework Theory named " Substance Structure Form and Function Theory". A research into the formation of the enterprise adaptive mechanism and a study of the internal and external factors affecting enterprise adaptive mechanism through investigation and statistics analysis of 156 enterprises reveal the main factors for this mechanism of enterprises, Therefore, This finding is useful in enterprise management.

Keywords: adaptive control structures environment effects
