摘要 综述了近10年来植物细胞质雄性不育恢复基因分子生物学的研究进展。包括: (1)恢复基因的遗传; (2)恢复基因的定位; (3)恢复基因的克隆; (4)恢复基因的结构特征; (5)育性恢复的分子机理等。

关键词 细胞质雄性不育; 恢复基因; 克隆; 分子机理

#### **Abstract**

It was reviewed here that the major advances of biological research on the fertility restoration gene for cytoplasmic male sterility in plant in the past decade. It focused on the genetic and localization and clone of restoration gene, their molecular characteristics and their possible mechanism of fertility restoration.

**Key words** cytoplasmic male sterility restoration gene cloning molecular mechanism
