Title

Land Planning and Development Mitigation for Protecting Water Quality in the Great Lakes System: An Evaluation of U.S. Approaches

Authors

Elizabeth Brabec
Peter Kumble

Publication Date

2005

Abstract

A review of the land use/water quality interface of the Great Lakes system, and the monitoring programs in place. The paper reviews the weakness in the system and suggests opportunities for improvement.

Comments

Emerging Issues Along Urban-Rural Interfaces: Linking Science and Society Mar. 2005.
