## Welcome to the ESNR website

The European Society of Neuroradiology - Diagnostic and Interventional (ESNR) is a professional society representing diagnostic and interventional neuroradiologists in Europe. The Society organises an Annual Scientific meeting and several Courses in Interventional and Diagnostic Neuroradiology.

ESNR also leads the way in professional education and organizes the European Examination in Neuroradiology.

ESNR is a forum for professional development of European Neuroradiology.

A warm welcome to our new website which aims to facilitate the flow and encourages the exchange of information between ESNR and its members. It has a public and a membership area, the latter providing many additional features including access to the official journal of the Society.

Welcome!

Prof. dr. Turgut Tali - President of the ESNR

## Latest News

- 24/06/2014 Candidates that applied for the positions of the Executive Committee of the ESNR
- 10/06/2014 First Irish Neuroradiology Meeting
- 17/04/2014 1st Croatian Neuroradiology Meeting
