Welcome to *The Journal of International Medical Research*

A leading international journal for rapid publication of original medical, pre-clinical and clinical research **on a page charge basis**.

Original full length pre-clinical, clinical and medical research articles are welcome. Also welcome are short preliminary studies, pilot studies, reviews, unusual case reports, and studies on new indications and new formulations of established products, pharmacoconomics, managed care and post-marketing surveillance.

Symposium proceedings, summaries of presentations or collections of medical, pre-clinical or clinical data on a specific topic are welcome for publication as Supplements.

Publication is on-line and in print six times a year **on a page charge basis**, providing:

- Fast scientific review and decision on acceptance
- Expert scientific editing
- Rapid publication in print and on-line
- Free, open access to full text on-line

Indexed and abstracted by Current Contents/Clinical Practice, Index Medicus, Medline/EMBASE, British Medicine, Chemical Abstracts, Excerpta Medica, CABS, Science Citation Index and other abstracting and data retrieval systems.
