## Foreword from Professor Lee L.Q. Pu

As a longtime friend and a frequent visiting professor to Shanghai Ninth People's Hospital, I am excited to see the inauguration of the *Chinese Journal of Plastic and Reconstructive Surgery (CJPRS)*. The journal, published in English, will serve a forum that plastic surgery colleagues from all over the world can directly follow and learn remarkable achievements in reconstructive and aesthetic plastic surgery from Chinese plastic surgeons. The journal itself will serve as a single source for many achievements made by our Chinese colleagues in the field of reconstructive and aesthetic plastic surgery.

The whole world of academic plastic surgery knows that Shanghai Ninth People's Hospital is another powerhouse in plastic surgery. The Department of Plastic and Reconstructive Surgery has more than seventy attending faculty surgeons and a few hundred graduate students and post-doctoral fellows. The plastic surgeons at the Shanghai Ninth People's Hospital perform over 100,000 reconstructive and aesthetic surgery cases per year. Their department has ranked #1 in mainland China for 10 consecutive years. They have also published extensively in some of the best English journals in plastic surgery such as *Plastic and Reconstructive Surgery (PRS)*, *Journal of Plastic, Reconstructive, and Aesthetic Surgery (JPRAS)*, *Annals of Plastic Surgery*, *Aesthetic Surgery Journal (ASJ)*, and *Aesthetic Plastic Surgery (APS)*.

I have been practicing, as an academic plastic surgeon, in the United States for more than 20 years and as a full Professor of Plastic Surgery for more than 14 years. I have served as an associate editor for PRS for nine years. Currently I serve as a clinical editor for *Aesthetic Surgery Journal* and the Associate Editor for *Aesthetic Plastic Surgery*. I have also served as an editorial board member for many surgical journals including *Annals of Plastic Surgery*. I have personally reviewed many submissions from China especially from Shanghai Ninth People's Hospitals for those journals. Their high impact experimental works and large case series of clinical investigations have always impressed me. I enjoy reading those articles and learning from my friends and colleagues at Shanghai Ninth People's Hospital.

Contributions to the scientific world of plastic surgery from China have always been unique. Very often their clinical investigations would involve incredibly large case series and laboratory investigations are from several well-funded centers of plastic surgery in China. Because of their unique graduate school system for plastic surgery trainees, many young plastic surgeons have done incredible amount of work with high quality of original investigations in plastic and reconstructive surgery. With inauguration of an English journal in plastic surgery like *CJPRS*, many of their excellent works can be published earlier and presented in English language other than their home language. I anticipate the journal will be quickly indexed and has its own impact factor.

I am honored to be elected to serve as an international editorial board member of *CJPRS*. I believe the journal has its unique value and will serve as a forum for more effective scientific exchange between China and the rest of the world. It can also serve as a unique forum for plastic surgeons of Chinese descent not only from mainland China, Hong Kong, Taiwan, and Singapore but also from North America, Europe, and other parts of the world. I congratulate the Editor-in-Chief Dr. Li Qingfeng and Executive Editor Dr. Lin Xiaoxi for their vision and leadership to create a new English journal for Chinese or Chinese descent plastic surgeons. I am very confident that the journal will soon be recognized widely by the international plastic surgery community and serve as an excellent forum so that new innovations and discoveries in plastic surgery from China can be recognized and learned by their international plastic surgery colleagues. I certainly anticipate and look forward to seeing fast development of the journal in the years to come.

### <寄语>

作为上海九院的客座教授和老朋友，我很高兴看到《中国整形与重建外科（英文）》(CJPRS)成功创刊。这本英文期刊将为全世界整形外科同行提供平台，可以直接了解并学习中国整形外科医生在重建和整形美容方面取得的卓越成就。这本期刊将成为报道我们中国同事在整形美容领域取得众多成就的绝佳来源。

全球整形外科学界都知道，上海九院是整形外科的一大重镇。它的整复外科拥有70多名主治医师，数百名研究生和博士后研究员。上海九院整复外科每年要做超过10万例整形重建和美容手术，并且已经连续10年在中国大陆地区排名第一。科室医生也常常在一些最好的英文期刊发表文章，如Plastic and Reconstructive Surgery (PRS), Journal of Plastic, Reconstructive, and Aesthetic Surgery (JPRAS), Annals of Plastic Surgery, Aesthetic Surgery Journal (ASJ), and Aesthetic Plastic Surgery (APS)。

作为一名学术型整形外科医生，我在美国执业超过20年，作为整形外科的全职教授超过14年。我曾在PRS做过九年的副主编。目前担任Aesthetic Surgery Journal 的临床编辑、Aesthetic Plastic Surgery 的副主编。我还担任过许多外科杂志的编辑委员会成员，包括Annals of Plastic Surgery，我亲自审阅了许多来自中国，特别是来自上海九院的投稿。他们具有高影响力的实验工作和大量的临床案例研究一直让我印象深刻。我喜欢阅读这些文章，并向我在上海九院的朋友和同事学习。

中国对全世界整形外科学界的贡献一直是独一无二的。他们非常开放的临床研究可以汇成规模巨大的病例系列报道和实验室研究，这些都归功于中国的几个资金充足的整形外科中心。他们独特的整形外科实习生、研究生教育体系，使许多年轻的整形外科医生已经在整形和重建外科的高质量原始调查中完成了大量的工作。随着像CJPRS 这样整形外科专业英文期刊的创立，年轻医生许多优异的研究成果可以用英语的形式更早发表。我预计CJPRS 将很快被索引，并有自己的影响因子。

我很荣幸被选为CJPRS 国际编辑委员会成员。我相信这本期刊有其独特的价值，它可以促进中国与世界各国进行更有效的科学交流。它也可以作为一个独特的平台，为来自中国大陆、香港、台湾和新加坡的华裔整形医生，以及来自北美、欧洲和世界其他地区的华裔整形医生提供服务。我祝贺主编李青峰教授和执行主编林晓曦教授用他们的远见和领导力为中国及华裔整形外科医生创办了一本英文期刊。我相信，本刊将很快得到国际整形外科界的广泛认可，成为一个优秀的平台，让国际整形外科同行了解和学习中国整形外科领域的创新和发现。我期待在未来的几年里，CJPRS能够快速发展。
