Research on establishment of clinical safety intensive hospital monitoring net of traditional Chinese medicine injection

Abstract:The establishment of clinical safety monitoring net of traditional Chinese medicine(TCM) injection is the one of the key issues of the monitoring work. The monitoring net is including varieties of types of net, such as clinical monitoring net, multimedia network platform, the net of experts or talents. The paper will introduce the establishing method of clinical safety monitoring net, the establishing of clinical safety monitoring net, and the establishing of network based on the internet, the knowledge network construction of experts, the net construction of talents are all included, to assure the development for clinical safety monitoring work.
