## Diagnosis and Treatment of Class II Division 2 Malocclusion

JOHN F. CLEALL;<sup>a</sup> ELLEN A. BEGOLE

<sup>a</sup>Dr. John F. Cleall, Department of Orthodontics, University of Illinois College of Dentistry, 801 South Paulina Street, Chicago, IL 60612

### ABSTRACT

A morphologic and functional evaluation of Class II, division 2 malocclusion based on digitized data from cephalometric and cinefluorographic radiography and dental casts. The principal findings are an essentially normal skeletal pattern outside the immediate dental region, with the major deviations directly involving the dentition. The research studies are followed by a review of therapeutic options in the light of the findings.

Dr. Cleall is Professor and Head of the Department of Orthodontics at the University of Illinois College of Dentistry in Chicago. He holds B.D.S., M.D.S., and D.D.S. degrees from the University of Otago, New Zealand

Dr. BeGole is an Associate Professor in the Department of Orthodontics at the University of Illinois College of Dentistry in Chicago. She holds a B.S. degree from the University of Michigan, an M.S. degree from Columbia University, and a Ph.D. from the University of Pittsburgh
