医师”(中医)培养计划1项;已建成国家在线开放课程1门。中医学本科专业于2015年已通过教育部专业认证。

学院在抓好教学、科研、医疗和人才队伍建设的同时重视国际交流与合作,先后与德国、南非、新加坡、泰国、香港、澳门和台湾等国家和地区的相关机构建立了长期的学术交流与合作关系,派出部分教师出国进修或开展科研合作,并接纳大批国内外和港澳台地区的专家、学者前来访问、讲学。

在国家“双一流”大学建设和广东省高水平大学建设的方针指导下,中医学院获得了快速发展的机遇,适时制订了学院“十三五”发展规划,明确了总体发展目标,进一步凝炼学科研究方向,强化特色,坚持方向引才、团队引才、引培结合,抓好学科建设工作,凝心聚力,为暨南大学及中医药事业的发展做出更大的贡献。

### **Introduction of school of Traditional Chinese Medicine**

Found in September 2016, school of traditional Chinese medicine(STCM) is based on the department of Traditional Chinese Medicine in Jinan University. There is a professoriate staff of 43 persons, of which includes 14 professors,13 vice professors and 10 lecturers. Currently, there are 8 doctor tutors and 22 postgraduate tutors in our school. For the purposes of nurturing high-quality Chinese medicine professionals and promoting the modernization of Chinese medicine, school are cultivating 432 full-time undergraduates,152 postgraduates (both scientific degree and professional degree) and 26 doctoral students. Moreover, there are also 15 teachers who take positions as vice chairmen, managing directors as well as permanent members

in the national second-class associations and 20 teachers as managing directors and permanent members in the provincial associations. Besides, our school is the chief and affiliated unit of Guangdong association of integrated Traditional Chinese and Western Medicine (Translational medicine) and Specialized Committee of Activating blood stasis.

STCM has access to their teaching resources, which include Institute of prescriptions and syndromes, Institute of integrated Traditional Chinese and Western Medicine, Training Center of Acupuncture & Moxibustion, Scientific research center as well as Undergraduate experimental training center. We offer a full-time doctor of integrated Traditional Chinese and Western Medicine degree program, a master of Traditional Chinese Medicine (TCM) and Integrated Medicine degree program as well as a post-doctor of Integrated Medicine research program. There are 2 key disciplines granted by State Administration of Traditional Chinese Medicine and 1 Undergraduate experimental training center. Our teaching staff with extensive teaching experience in both Traditional Chinese Medicine and western medicine are dedicated to equip our students with solid knowledge and clinical skills. Namely, our school principal, professor Chen Jiaxu is the Distinguished Professor of Changjiang Scholar and obtainer of National Outstanding Youth Funds. Professor Shen Yingsen is one of the national Chinese medicine experts academic experience inherit old work guiding teacher. There are also 2 Guangdong famous experts in TCM, 3 awarders of “Thousand-Hundred-Ten Talents Project” in Guangdong Province, 1 awarder of “Ten top outstanding teachers” in Jinan University. In addition to nurturing future Chinese Medicine professionals, our school is also committed to developing a provincial teaching team, a provincial course Team, a provincial specific major and “excellent Chinese doctor training program” in educational department. We

develop a Massive Open Online Course for public promotion of TCM. And our TCM bachelor major has been committed by the National Education Ministry in 2015. So far, STCM has fostered more than 3000 professional TCM talents. Of those, there are more than 2000 who are from Hong Kong, Macao, Taiwan and oversea Chinese regions.

Adhering to the spirit of international learning, our school, on one hand, pays much attention in the establishment of teaching, research, clinics and training programs, on the other hand strengthens the academic exchange and cooperation with many associations from foreign countries and regions, such as Germany, America, South Africa, Singapore, Thailand, Hong Kong, Macao and Taiwan. Not only do we assign part of teachers to go aboard for further education or scientific cooperation, but also introduce numbers of famous foreign experts and scholars for visiting and lecturing. Moreover, over 1500 talents were attracted to accept the Acupuncture&Moxibustion training

Under the guideline of construction of national double first-class university and provincial high-level university programs, our school has seized the great challenge to develop ourselves. With the aim of facilitating the development of research in Chinese medicine and promoting modernization and scientific characteristic of Chinese medicine, we have formulated a 13<sup>th</sup> five-year plan and consolidated the strategy of talents rejuvenation. In addition, we insist on the strategy of talents' training and reinforce the discipline construction. Together, all these expansions contribute to build a stronger TCM foundation of education, training and research.
