Investigation and collection development pattern for genuineness of *Aconitum Carmichaeli*

Abstract: Objective: To study the collection the development pattern for genuineness of *Aconitum Carmichaeli*, which lays a good basis for the sustainable utilization of *A. Carmichaeli* resources. Method: We adopted the combined methods of investigation of herbal literatures, researching of origins in *A. Carmichaeli* and consultation with the experts, identified the development pattern of *A. Carmichaeli*. From genuine producing areas and its genuineness. Result: The genuine producing area of *A. Carmichaeli* is Jiangyou district of Sichuan province, genuine medicinal materials of *A. Carmichaeli* is mainly oriented by production techniques. It has cultivation techniques, unique and exquisite processing, which have trim root delicately and remove top complexly. Conclusion: *A. Carmichaeli* from Jiangyou is famous genuine medicinal materials in Sichuan Province. It should strengthen the inheritance and creative research for cultivation techniques, unique and exquisite processing, ensure the safety and effect in medication.
