中文摘要:药品标准制度作为国家药物政策的重要组成部分,是药学事业发展到一定程度的必然结果。我国的药品标准制度源远流长,药品标准化活动的萌芽可追溯到秦汉时期,经过历朝历代的积淀,为现代药品标准制度的建立和完善奠定了坚实的基础。新中国成立后,我国的药品标准工作成绩卓著,目前正进入一个新的发展阶段。本研究则简要叙述我国药品标准制度发展的历史。

中文关键词:药品标准 标准化 制度 简史

## Brief history of pharmaceutical standard system in China

**Abstract:**Pharmaceutical standard system which belongs to an important part of national drug policies is an inevitable result of the development of pharmacy. There was a long standing of pharmaceutical standard system in China whose germination could be traced back to Qin and Han dynasties, and it had laid a solid foundation for the establishment and improvement of modern pharmaceutical standard system by continual accumulation from the past dynasties. Since the founding of new China, distinguished achievements had been obtained on pharmaceutical standardization working, and currently it is in a new developing stage. There was a brief description in this paper on the development history of pharmaceutical standard system in China.
