Research Highlights

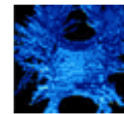

ECE Associate Professor Yongyi Yang and MIRC Director Miles Wernick have developed computer-based methods to improve the diagnostic accuracy of mammographic interpretation. The MIRC data retrieval system, in effect, provides radiologists with an online atlas of images with known pathology.

AREAS OF SPECIALIZATION

Neural Engineering

Medical Imaging

Cell & Tissue Engineering

As a leader in biomedical engineering research and education, IIT prepares students for leadership positions in some of today's most promising and challenging careers in industry, medicine and research. IIT offers a Bachelor of Science in Biomedical Engineering and a Doctor of Philosophy in Biomedical Engineering. Both programs enable students to specialize in one of the three areas shown above.

Student Spotlight

Michael Turturro
BME, Ph.D. Candidate
