摘要 从系统论角度研究高新技术产业与创业资本产业的相互依赖、相互制约、相互促进的互动关系是十分必要的。从微观视角来看,可以把由高新技术企业(企业家)、创业资本家和创业资本组成的系统称为高新技术—创业资本系统。而创生是高新技术—创业资本(HTVC)系统演化的始点,实际上就是企业家与创业资本家互相寻找的过程。在模型假设条件下,尽管企业家采取对抗解策略,但是若至少存在一创业资本家采取毁损解策略,那么HTVC系统肯定不能创生。

关键词: 高新技术—创业资本系统 创生 对抗解策略 毁损解策略

Abstract: It's very necessary to study the relationship between the High-tech industry and the venture capital industry according to the system theory. From the micro-view, the system, which is composed by venture (or entrepreneur), venture capitalists and venture capital, can be called the HTVC system. Creation is the beginning of evolvement for the HTVC integration system, and in fact, is the process during which entrepreneurs and venture capitalists search for each others. Under the model's assumption, though the entrepreneur adopts opposability solution strategy, if there was at least one venture capitalist who adopts the mutilation solution strategy, the HTVC integration system determinedly can't get created.
