会议背景介绍: The Reshaping of the World: Consequences for Society, Politics and Business

Profound political, economic, social and, above all, technological forces are transforming our lives, communities and institutions. Rapidly crossing geographic, gender and generational boundaries, they are shifting power from traditional hierarchies to networked heterarchies. Yet the international community remains focused on crisis rather than strategically driven in the face of the trends, drivers and opportunities pushing global, regional and industry transformation.

“The Reshaping of the World: Consequences for Politics, Business and Society” is therefore the thematic focus of the World Economic Forum Annual Meeting 2014. Our aim is to develop the insights, initiatives and actions necessary to respond to current and emerging challenges.
