Evaluation of an Impact that Institutional Change has on Economic Growth of XPCC

Abstract:

In this paper, methods of regression and measurement are used to make quantitative analysis on the impact to the degree of marketization, privatization of the level of openness under Institutional Change on economic growth, which is used to Evaluate contribution that various factors have on Economic Growth of XPCC. From the analysis result we can conclude that institutional innovation is an important way of promoting Economic Growth of XPCC. Therefore, it's necessary for XPCC to reform and open furtherly, and to optimize the Institutional environment positively, and to develop the private economy vigorously, and to expand export-oriented economy, so a sound market economy will be built.

Keywords: Institutional Change XPCC Economic Growth
