Abstract: Discussions on access points and authorized headings in the Statement of International Cataloguing Principles are primary basis for us to choose and establish access points for corporate bodies. Comparisons and analysis were made with respect to rules for the choice of access points for corporate bodies and for the establishment of authorized headings in the Rules of Headings of the Bibliographic Description of Monographs, the Cataloging Rules of Chinese Documents and its second edition, and opinions were put forward on standardization of access points for Chinese-language corporate bodies.
