## Web2.0对数字图书馆服务创新的启示

孙茜 ( 中国科学院文献情报中心 中国科学院研究生院 )

文 摘

通过多年发展,我国现有的数字图书馆在文献获取方面取得巨大成就。可是,数字图书馆所提供的服务大多以文献检索和传递为主。这体现的是以资源为中心为用户服务的理念。随着互联网由web1.0向web2.0的转变,信息的生产、组织与传播方式随之一起改变,用户利用信息的行为也与以往不尽相同。本文分析了现存数字图书馆服务的一些局限性,简介了web2.0的含义与应用,并提出数字图书馆可以引入web2.0应用来创新用户服务——体现以用户为中心为用户服务的理念。

The Illumination of Web2.0 to the Services of Digital  
Library

Sun Qian ( Library of Chinese Academy of Sciences )

Abstract: After several years of development, digital library has achieved great performance on the acquisition of document information. But many of its services focus mainly on the information resources, this shows the thought of relying on the information resources to serve the user. When internet is evolving from web1.0 to web2.0, information production, organization, communication and retrieving have changed, also the user's information behavior are different now. The author analyses the limitation of the existing digital library services, briefly introduces web2.0, and puts forwards that we can use the application of web2.0 to innovate our services to serve the user depending on themselves.
