摘要 图书馆图书验收工作是一项复杂又繁琐的工作。以书商提供的到馆图书电子清单为验收源, 设计和开发出一种新型的图书自动验收模型,使图书验收工作更加自动化。这种验收流程不仅可省去人工验收需要核对并修正书名、著者、定价的过程,同样还可省去录入到货数量的步骤。

Abstract The book checking and accepting in library is a complex work. Taking arrived electric list provided by suppliers as checking resource, the author designs and develops a new model for book checking and accepting automatically, which makes book checking and accepting more automatically. This model saves not only the flow of correcting titles, writers and prices with manpower check and acceptance, but also the step of recording amount of arrived books.
