

## About the Journal

*Bayesian Analysis* is an electronic journal of the **International Society for Bayesian Analysis**. It seeks to publish a wide range of articles that demonstrate or discuss Bayesian methods in some theoretical or applied context. The journal welcomes submissions involving presentation of new computational and statistical methods; reviews, criticism, and discussion of existing approaches; historical perspectives; description of important scientific or policy application areas; case studies; and methods for experimental design, data collection, data sharing, or data mining. Evaluation of submissions will be based on importance of content and effectiveness of communication. Some *general stylistic recommendations* are provided via the [Submit or Resubmit web page](#). *Bayesian Analysis* is dedicated to prompt review and publication of manuscripts.

### Editors

Kate Cowles, University of Iowa  
Philip Dawid, University of Cambridge  
David Dunson, Duke University  
David Heckerman, Microsoft Corp.  
Michael Jordan, University of California - Berkeley  
Antonietta Mira, University of Insubria  
Fabrizio Ruggeri, CNR - IMATI (Milano)  
Bruno Sanso, University of California - Santa Cruz

### Editor-in-Chief

Brad Carlin, University of Minnesota

### System Managing Editor

Pantelis Vlachos, Carnegie Mellon University

### Managing Editor

Herbie Lee, University of California - Santa Cruz

### Production Editor

Angelika van der Linde, Universitat Bremen

### Deputy Editor

Marina Vannucci, Rice University

### Editorial Assistant

Heidi Sestrich, Carnegie Mellon University

### Associate Editors

### Former Editors
