2008-2011年SCI检索论文清单

序号	文章名称	发表刊物/会议名称	发表年份
1	High-frequency Interference in Low Strain Integrity Testing of Large-diameter Pipe Piles	SCIENCE CHINA Technological Sciences	2011
2	Parameter Identification for Modeling River Network using a Genetic Algorithm	Journal of Hydrodynamics, Ser. B	2010
3	A new elliptic-parabolic yield surface model revised by an adaptive criterion for granular soils	Science China Technological Sciences	2010
4	Application analysis of empirical mode decomposition and phase space reconstruction in dam time-varying characteristic	SCIENCE CHINA Technological Sciences	2010
5	Effects of hydrodynamic turbulence on the performance of activated sludge in sequencing batch reactors	International Journal of Food, Agriculture & Environment	2010
6	Strength and deformation behaviour of coarse-grained soil by true triaxial tests	Journal of Central South University of Technology	2010
7	A fiber optic sensor for detecting and monitoring cracks in concrete structures	SCIENCE CHINA Technological Sciences	2010
8	Analysis of crack propagation in concrete structures with structural information entropy	SCIENCE CHINA Technological Sciences	2010
