

Water Asset Management International

Editors: Dr John Bridgeman, Professor Stewart Burn, Mr Scott Haskins and Dr Shiv Iyer

Water Asset Management International is an international newsletter focusing on asset management in water and wastewater utilities. The focus of the newsletter is on the strategic aspects of this developing field, providing utilities with international perspectives on infrastructure planning and maintenance as they seek to deliver cost-effective services to their customers.

Each issue of Water Asset Management International contains submitted papers from around the world, along with news, details of events and publications, and perspectives from water utility CEOs on the importance of asset management. Submissions of papers of likely interest to an international audience and presented so as to be accessible to the general asset management community are welcomed.
