### Water Science and Technology *Water Sci Tech*

Published/Hosted by [IWA Publishing](#). ISSN: 0273-1223.

Water Research publishes refereed, original research papers on all aspects of the science and technology of water quality and its management worldwide. A broad outline of the journal's scope includes: Treatment processes for water and wastewaters, municipal, agricultural and industrial, including residuals management. Water quality standards and the analysis, monitoring and assessment of water quality by chemical, physical and biological methods. Studies on inland, tidal or coastal waters, including surface and ground waters, and point and non-point sources of [pollution](#). The limnology of lakes, impoundments and rivers. Solid and hazardous waste management, including source characterization and the effects and control of leachates and gaseous emissions. Environmental restoration, including soil and groundwater remediation. Analysis of the interfaces between sediments and water, and water/atmosphere interactions. The application of mathematical and modelling techniques. Public health and risk assessment. Education and training.
