Santana, E., O'Brien, K. A., & **Chronis-Tuscano, A.** (2010, November). *Preliminary test of the "similarity-fit hypothesis" for parents and children with ADHD symptoms: Does situation type matter?* Poster presented at the meeting of the Association for the Advancement of Cognitive and Behavioral Therapies, San Francisco, CA.

Chronis-Tuscano, A., O'Brien, K. A., Johnston, C., Jones, H. A., Clarke, T. L., Raggi, V. L., . . . Seymour, K. E. (2011, June). *Improvement in parenting mediates the relationship between maternal ADHD and parent training outcomes.* Poster presented at the meeting of the International Society for Research in Child and Adolescent Psychopathology, Chicago, IL.

Lewis-Morrarty, E. E., Degnan, K. A., **Chronis-Tuscano, A.**, Rubin, K. H., Pine, D., & Fox, N. A. (2011, June). *Child temperament, gender, and parental overcontrol predict social anxiety symptoms in adolescence.* Poster presented at the meeting of the International Society for Research in Child and Adolescent Psychopathology, Chicago, IL.

Seymour, K. E., **Chronis-Tuscano, A.**, Halldorsdottir, T., Owens, K., & Sacks, T. (2011, June). *Emotion regulation mediates the relationship between ADHD and depressive symptoms in youth*. Poster presented at the meeting of the International Society for Research in Child and Adolescent Psychopathology, Chicago, IL.

Thomas, S. R., **Chronis-Tuscano, A.**, O'Brien, K. A., Clarke, T. L., & Frechette, E. M. (2011, July). *Personality and observed parenting behaviors in mothers of children with ADHD*. Poster presented at the meeting of the Association of Black Psychologists, Crystal City, VA.

Thomas, S. R., **Chronis-Tuscano, A.**, & O'Brien, K. (2011, November). *Sequential analysis of observed parent-child interactions in families of children with ADHD*. Poster presented at the meeting of the Association for Behavioral and Cognitive Therapy, Toronto, ON, Canada.

Huggins, S. L., **Chronis-Tuscano, A.**, & Rooney, M. (2011, November). *Risky sexual behavior in college students with and without attention-deficit/hyperactivity disorder*. Poster presented at the meeting of the Association for Cognitive and Behavioral Therapies, Toronto, ON, Canada.

Chronis-Tuscano, A., Thomas S. R., O'Brien K. A., Huggins S. L., Dougherty, L. R., Ellison K., . . . Rubin, K. H. (2012, November). *The turtle project: A multi-component intervention to help inhibited preschoolers come out of their shells*. Poster presented at the meeting of the Association for Behavioral and Cognitive Therapy, National Harbor, MD.

Woods, K. E., Siegel, A. H., Lewis-Morrarty, E., O'Brien, K., Mazursky-Horowitz, H., Thomas, S., & Chronis-Tuscano, A. (2013, May). *A preliminary evaluation of Parent-Child Interaction Therapy-Emotion Development for preschoolers with attention-deficit/hyperactivity disorder*. Poster presented at the meeting of the University of Maryland Undergraduate Research Day and PSYC Terps Research Fair, College Park, MD.

Frenkel, T. I., Fox, N. A., Pine, D. S., Walker, O. L., Degnan, K. A., Lewis-Morrarty, E. E., & **Chronis-Tuscano, A.** (2013, June). *Stable early behavioral inhibition predicts adult internalizing problems and substance abuse*. Poster presented at the meeting of the International Society for Research on Child and Adolescent Psychopathology, Leuven, Belgium.

Seymour, K. E., **Chronis-Tuscano, A.**, Iwamoto, D. K., Kurdziel, G., & MacPherson, L. (2013, June). *Emotion regulation mediates the longitudinal association between youth ADHD and depressive symptoms*. Poster presented at the meeting of the International Society for Research on Child and Adolescent Psychopathology, Leuven, Belgium.

Mazursky-Horowitz, H., Felton, J. W., MacPherson, L., Ehrlich, K. B., Cassidy, J., Lejuez, C. W., & **Chronis-Tuscano, A.** (2013, November). *Maternal emotion regulation mediates the association between adult attention-deficit/hyperactivity disorder symptoms and parenting*. Poster presented at the meeting of the Association for Behavioral and Cognitive Therapies, Nashville, TN.

Thomas, S. R., **Chronis-Tuscano, A.**, O'Brien, K.A., & Clarke, T. L. (2013, November). *Maternal depression history moderates maternal responses to the compliant and noncompliant behaviors of their children*. Poster presented at the meeting of the Association for Behavioral and Cognitive Therapies, Nashville, TN.

Woods, K. E., Mazursky-Horowitz, H., Lewis-Morrarty, E., O'Brien, K. A., Thomas, S. R., & **Chronis-Tuscano, A.** (2013, November). *Tailoring Parent-Child Interaction Therapy to meet the emotional needs of young children with ADHD*. Poster presented at the meeting of the Association for Behavioral and Cognitive Therapies, Nashville, TN.

LeMoine, K. A., Felton, J. W., **Chronis-Tuscano, A.**, & Rubin, K. H. (2014, May). *ADHD, Social Support and Gender Interact to Predict Delinquent Behaviour at the Transition to High School*. Poster presented at Development 2014: A Canadian Conference on Developmental Psychology, Ottawa, Ontario.

Choque, C., Felton, J. W., Loya, J. M., Chen, S. Z., MacPherson, L., **Chronis-Tuscano, A.**, & Lejuez, C. W. (2014, August). *Inattentive-Type ADHD Predicts Higher Depression Levels in a Community Sample of Youth*. Poster presented at the American Psychological Association Annual Convention. Washington, DC.

Woods, K. E., Mazursky-Horowitz, H., Wang, C., Zoromski, A., & **Chronis-Tuscano A.** (2014, November). *A preliminary examination of the relationship between child executive functioning task performance and observed behaviors in the Summer Treatment Program*. Poster to be presented at the meeting of the Association for Behavioral and Cognitive Therapies, Philadelphia, PA.

Thomas, S.R., Smith, V.C., Dougherty, L.R., Rubin, K.H., & **Chronis-Tucano, A.** (2015, July). *Paternal Psychological Functioning, Parenting and Child Sleep Problems among Inhibited/Anxious Preschoolers*. Poster to be presented at the annual meeting of the International Society for Research in Child and Adolescent Psychopathology, Portland, OR.

h. Sponsored Research

i. Grants

Principal Investigator

1. "Comprehensive Assessment of ADHD in Low-Income, Minority Children"

Principal Investigator: Andrea M. Chronis, Ph.D.

Agency: University of Maryland

Type: Graduate Research Board Summer Award

Period: 6/1/03-9/1/03

Total Costs: \$8,500

Summary: The project involved the comprehensive, family-based assessment of low income children with and without ADHD recruited from schools in Prince George's County.

2. "Parental ADHD & Parenting: Child Treatment Implications"

Principal Investigator: Andrea M. Chronis, Ph.D.

Agency: National Institute of Mental Health

Type and Number: R03 MH070666-1

Period: 4/1/04-9/30/05

Total Costs: \$72,201

Summary: The aims of this study were: (1) to examine associations between maternal ADHD symptoms and self-reported and observed parenting behavior in 70 mothers of children with ADHD; and (2) to examine compliance with and participation in past and current treatment for child ADHD as a function of maternal ADHD symptoms.

3. "Efficacy of Concerta™ in Treating ADHD in Mothers of Children with ADHD"

Principal Investigator: Andrea M. Chronis, Ph.D.

Agency: McNeil Corporation

Type: Investigator-Initiated Trial

Period: 1/1/04-1/31/08 (No cost extension)

Total Costs: \$106,111

Summary: This study involved a dose-response trial of Concerta(TM) methylphenidate for 25 mothers of children with ADHD who have ADHD themselves. The aim of this study was to assess the efficacy of Concerta(TM) in treating mothers with ADHD across measures of ADHD symptoms, impairment, and parenting.

4. "Integrated Treatment for Depressed Mothers of ADHD Children"

Principal Investigator: Andrea M. Chronis, Ph.D.

Agency: National Institute of Mental Health

Type and Number: R34 MH073567-01A1

Period: 3/15/06-12/31/08 (no cost extension until 10/31/2010)

Total Costs: \$646,102

Summary: The goals of this project were to develop and evaluate a novel, integrated approach to behavioral parent training for mothers of children with ADHD with elevated depressive symptoms in order to facilitate successful developmental and treatment outcomes for children with ADHD.

4a. Summer 2009 ARRA Supplement: Recovery Act Funding for Administrative Supplements Providing Summer Research Experiences for Students & Science Educators (NOT-OD-09-060)

Principal Investigator: Andrea Chronis-Tuscano, Ph.D.

Period: 6/1/09-10/31/10 (no cost extension)

Total Costs: \$23,259

5. "Understanding Fathers of Children with ADHD"

Principal Investigator: Andrea Chronis-Tuscano, Ph.D. (Student Investigator: Abigail Mintz)

Agency: University of Maryland

Type: Graduate Research Board Semester Research Award

Period: Fall 2008 Semester

Total Costs: \$3,500

Summary: The project involved gathering data on the psychological functioning of fathers of children participating in our NIMH-funded study of depressed mothers.

6. "A Multi-Method Early Intervention Program for Inhibited and Anxious Preschoolers" Principal Investigator: Andrea Chronis-Tuscano, Ph.D. (Co-PI: Ken Rubin, Ph.D., University of Maryland)

Agency: National Institute of Mental Health

Type and Number: R34 MH083832-01A1

Project Period: 3 years (02/01/2010-11/30/2012)—No-Cost Extension until 11/30/2013

Total Costs: \$641,580

Summary: This project aims to develop, refine, and test a developmentally-grounded, multi-component early intervention program for inhibited/anxious preschoolers and their parents.

7. "Sequencing Treatments for Mothers with ADHD & Their At-Risk Children: A SMART Pilot"

PI: Andrea Chronis-Tuscano, Ph.D. (Co-PI: Mark Stein, Ph.D., Seattle Children's Hospital)

Agency: National Institute of Mental Health

Type and Number: R34MH099208-01

Project Period: 3 years (07/01/2013-06/30/2016)

Total Costs: \$712,990

Summary: This study aims to demonstrate feasibility, develop recruitment, assessment and treatment protocols and test the concept of treating mothers first using either stimulant medication or behavioral parent training, and then adapting treatment based on response in preparation for a SMART R01.

8. "Neural and Genetic Correlates of Parenting in Mothers of Children with Attention-Deficit/ Hyperactivity Disorder"

Principal Investigator: Andrea Chronis-Tuscano, Ph.D.

Agency & Type: 2013 BSOS Dean's MRI Research Initiative

Total Costs: \$39, 600

Summary: The broad aim of the proposed project is to investigate neural mechanisms underlying maternal parenting in families of children with ADHD.

9. Role: PI (Co-PI: Kenneth Rubin, Ph.D., University of Maryland)

Title: Multi-Component Early Intervention for Socially Inhibited Preschool Children

Agency: National Institute of Mental Health

Type and Number: 1R01MH103253-01

Project Period: 5 years (1/15/2015-1/14/2020)

Total Costs: \$3,168,316

Summary: This project aims to conduct a full-scale randomized control trial to compare the "Turtle Program" (combined adapted Parent Child Interaction Therapy and Social Skills Facilitated Play) to a non-therapeutic playgroup.

Co-Investigator

1. "Behavioral Technologies for Predicting HIV Risk"

Principal Investigator: Carl W. Lejuez, Ph.D., University of Maryland

Agency: National Institute of Drug Abuse

Type and Number: R01 DA018647

Period: 07/01/05 - 06/30/10

Total Costs = \$1,800,000

Summary: The proposed project examined the utility of a behavioral assessment tool in predicting the longitudinal development of HIV-risk taking behavior among inner city adolescents.

2. "Distress Tolerance and Adolescent Substance Use"

Principal Investigator: Stacey B. Daughters, Ph.D., University of Maryland

Agency: National Institute on Drug Abuse

Type and Number: R21 DA022741

Period: 9/1/07-8/30/09

Total Costs = \$412,500

Summary: This project aimed to examine the relationship between distress tolerance and adolescent substance use.

3. "The Effects of Early Temperament on Social Behavior in Adolescence"

Principal Investigator: Nathan Fox, Ph.D., University of Maryland

Agency: National Institute of Mental Health

Type and Number: Recovery Supplement U01MH074454

Project Period: 2 years (7/1/2009-8/31/2011)

No-cost extension 9/1/2011-8/31/2012

Total Costs: \$1,332,390 (\$481,170 in Psychology)

Summary: The goal of this project was to examine how the trajectories of childhood temperament predict the behavioral and neural correlates of attention bias to threat and incentive for reward in young adults with a history of behavioral inhibition and how these processes moderate the association between temperament and anxiety disorders and substance use. Results will inform prevention and intervention of anxiety and substance use.

4. "Parenting in Adults with ADHD"

Principal Investigator: Charlotte Johnston, Ph.D., University of British Columbia

Agency: Canadian Institutes of Health Research (CIHR)

Type: Operating grant

Project Period: 10/1/2010 - 9/30/2015

Total Costs: \$341,246.00

Summary: This project examines parenting in mothers and fathers with ADHD whose children also have ADHD, and aims to develop a parenting intervention specific to this population.

5. "Employment and maternal depression: Understanding the role of work in psychological health among mothers of children with ADHD"

Principal Investigator: Karen O'Brien, Ph.D., University of Maryland

Agency: University of Maryland

Type: Graduate Research Board Semester Research Award

Period: Summer 2011

Total Costs: \$9000

Summary: The main purpose of this study is to investigate the degree to which work salience, flexibility in the workplace, family supportive organization perceptions, and maternal income will moderate the relationship between parenting stressors and maternal depression. This line of research could lead to the development of models to alleviate the negative behavioral and psychological child outcomes associated with maternal depression through focused interventions that enable mothers to remain employed. Assisting mothers to remain employed would provide families with needed financial resources to reduce poverty and enable access to treatment to enhance child functioning.

6. "Cortisol Awakening Response and Risk for Depression"

Principal Investigator: Lea R. Dougherty, Ph.D., University of Maryland

Agency: University of Maryland

Type: College of Behavioral and Social Sciences Dean's Research Initiative

Period: 1 Year (May 2011-May 2012)

Total Costs: \$40,000

Summary: The goal of this project was to investigate the cortisol awakening response (CAR) as an early emerging vulnerability marker for depression risk.

7. "Trajectories of Behavioral Inhibition and Risk for Anxiety"

Principal Investigator: Nathan Fox, Ph.D., University of Maryland

Agency: National Institute of Mental Health

Type/Number: U01MH093349

Period: 04/01/2011-03/31/2016

Total Costs: 2,704,476

Summary: The goal of this study is to see behaviorally inhibited children before they enter middle school (10-11 years of age) and then soon after they transition to early adolescence (12-13 years of age). We will observe their social competence with familiar and unfamiliar peers and assess their attention bias to threat, as well as cognitive self-monitoring, in order to gain a detailed understanding of the social and cognitive mechanisms that influence the pathways from temperament to adaptive or maladaptive outcomes during this important period of development.

Primary Mentor on Funded Student Grants

1. “Associations between ADHD/DBD and Parenting in Latino Families”

Principal Investigator: Yamalis Diaz, M.A., University of Maryland

Agency: National Institute of Child Health & Development

Type and Number: F31 HD051094-01 (Minority Individual National Research Service Award)

Period: 08/01/05 - 08/01/07

Total Costs = \$61,876

Summary: The primary aim of this project was to investigate the relationship between parenting styles and child attentional/behavioral difficulties within Latino families with the ultimate goal of developing culturally-sensitive parent training programs for Latino families.

2. “Behavioral Homework Intervention for Middle School Students with ADHD”

Principal Investigator: Veronica L. Raggi, M.A., University of Maryland

Agency: American Psychological Association (APA), Society of Clinical Child & Adolescent Psychology

Type: Dissertation Award

Period: 10/1/05-8/1/07

Total Costs: \$2,500

Summary: The aim of this project was to develop and test a brief behavioral homework intervention for middle school students with ADHD.

3. “Risky Behavior in College Students with ADHD”

Principal Investigator: Mary E. Rooney, M.A., University of Maryland

Agency: National Institute on Drug Abuse

Type and Number: F31 DA024946-01 (Individual National Research Service Award)

Total Project Period: 2 Years (8/1/08 - 8/01/10)

Total Costs = \$120,000

Summary: The primary aim of this project was to the extent to which college students with ADHD engage in risky behavior (including alcohol use, substance use, and risky sexual behavior) compared to college students without ADHD.

4. “Cortisol Reactivity and Observed Parenting Among Mothers of Children with ADHD”

Principal Investigator: Sharon R. Thomas, University of Maryland

Agency: National Institute on Child Health & Development (NICHD)

Type: Individual Minority National Research Service Award

Total Project Period: 4/1/2013-3/31/2016

Total Costs = \$128,451

Summary: This study seeks to extend the existing literature by providing an empirical examination of the relationship between individual differences in maternal cortisol reactivity following a stressful task and observed parenting behavior in mothers of children with ADHD.

Project Advisor

1. "Bridging Gaps with Virtual Mentoring"

Principal Investigator: Scott Roberts, Ph.D., University of Maryland

Agency & Type: University of Maryland Office of Diversity & Inclusion (ODI)
"Moving Maryland Forward" Grant

Period: July 2013-May 2014

Total Costs = \$15,000

Summary: The goal is to produce a series of online video modules that provide current and prospective minority students with virtual mentoring on success at the undergraduate level. Some modules will focus specifically on psychology while others on more general aspects of academics, professional development and preparation for graduate study.

Consultant

1. "Adult Follow-up of Girls with ADHD and Neurally-Based Sex Differences"

Principal Investigator: Stephen Hinshaw, Ph.D., University of California, Berkeley

Agency: National Institute of Mental Health

Type and Number: R01 MH45064

Proposed Project Period: 5/1/13 – 4/30/18

Total Costs: \$2,300,000

Summary: In this R01 proposal, we aim to investigate neutrally-based sex differences among a sample of young-adult females from a longitudinal study of females with ADHD.

Principal Investigator

1. "Behavioral Activation to Reduce Problem Drinking in College Students with ADHD" (Impact/Priority Score = 16)

Principal Investigator: Andrea Chronis-Tuscano, Ph.D.

Agency: National Institute of Alcohol Abuse & Alcoholism

Type and Number: 1 R34 AA022133-A1

Project Period: 3 years (09/01/2013-08/31/2016)

Total Costs: \$668,997

Summary: This project aims to develop, refine, and test an adaptation of Behavioral Activation for college students with ADHD, with the goal of reducing problematic drinking within the college context.

2. Role: PI

Title: Moderators and Mediators of Adjustment in Offspring of Parents with ADHD (Impact/Priority Score = 42; 43%ile)

Agency: National Institute of Child Health & Development

Type and Number: R01HD083262-01

Project Period: 5 years (04/01/2015-03/31/2020)

Total Costs: \$3,802,851.73

Summary: The proposed study involves assessing mothers and fathers with and without childhood ADHD who were originally ascertained as participants in the Multimodal Treatment Study for ADHD (MTA) and the Berkeley Girls with ADHD Longitudinal Study (BGALS), along with their 4-12 year-old offspring. The broad aims of this research are to examine developmental mechanisms that place individuals diagnosed with ADHD in childhood at risk for maladaptive parenting and identify factors that mitigate risk in their offspring.

Co-Investigator

1. "Working Memory Training in ADHD Children: Exploration of Individual Differences"

Principal Investigator: Priti Shah, Ph.D., University of Michigan

Agency: Institute for Educational Sciences (IES)

Type and Number: R324A130034

Proposed Project period: 9/1/2013 - 8/31/2017

Proposed Total Costs: \$1,599,836

Summary: The proposed project examines the efficacy of working memory training for children with ADHD and explores moderators of training effects.

Consultant

1. "Sustaining the Effects of Psychosocial Treatment for Children with ADHD"

Principal Investigator: Thomas Power, Ph.D., Children's Hospital of Philadelphia

Agency: National Institute of Mental Health

Type and Number: R01 MH099020-01

Proposed Project Period: 5/1/13 – 4/30/18

Total Costs: \$2,400,000

Summary: The project is designed to evaluate the effectiveness of a family-school intervention designed to sustain response to intervention, referred to as the FSS–Sustained Response program (FSS-SR).

Mentor

1. "Development of a Depression Preventive Intervention for Adolescents with ADHD" (resubmitted April 2013)

Principal Investigator: Michael C. Meinzer, B.A., B.S. (Florida International University)

Agency: National Institute of Mental Health

Type and Number: F31 MH100806-01 (Individual National Service Award)

Total Project Period: 2 years (8/1/2013-8/1/2015)

Total Costs= \$76,791

Summary: The aim of this project is to develop and conduct an open trial of a tailored preventive intervention to reduce current depressive symptoms and the risk for future major depressive disorder in adolescents with ADHD.

2. "Influences of Anxiety and Conflict Monitoring on Children's Social Development"

Principal Investigator: Olga L. Walker, Ph.D., University of Maryland, Human Development

Agency: National Institute of Mental Health

Type and Number: F32 MH100811-01 (Individual National Research Service Award)

Total Project Period: 3 Years (4/1/13 - 3/31/16)

Total Costs = \$161,826

Summary: The purpose of this study will be to examine whether heightened conflict monitoring moderates the relation between anxiety and children's observed social problem solving behavior.
